

2015 Operating Plan

Responsible Party(s)	Project Name	Project Location	Project Deadline	Acreage	Project Narrative	Species Targeted
CWMA			Ongoing	N/A	Use existing weed list-serves and WIN	
CWMA			Ongoing	N/A	Hold CWMA meetings	
CWMA			Ongoing	N/A	Involve new organizations	
CWMA- Steering Committee			27-Jan-15	N/A	Review Management Plan	
CWMA- Steering Committee			27-Jan-15	N/A	Prepare 2015 Operating Plan	
Army Corps of Engineers	Avery Shoreline Restoration	Avery Park, Klickitat County, WA	15-May	1	Project includes manually removing false indigo and Himalayan blackberry from shoreline and revegetating the area with native grasses, forbs, willows and cottonwood cuttings.	False indigo, Himalayan blackberry
Army Corps of Engineers: Rangers	False Indigo	Bonneville Lock and Dam	Ongoing	50	Utilized rangers and Northwest Youth Crew in 2014 to reduce populations on Hamilton Island Rec. Area. Plans are in place to utilize the NWYC for 2015.	False indigo

Army Corps of Engineers:Rangers	Scotch Broom	Bonneville Lock and Dam	Ongoing	350	Continue to incorporate ranger staff, Skamania County Noxious Weed Board personnel and the Skamania County Corrections Crew to lop and drop populations.	Scotch broom
Army Corps of Engineers:Rangers	Common Teasel	Bonneville Lock and Dam	Ongoing	200	Continue to incorporate ranger staff, Skamania County Noxious Weed Board personnel and the Skamania County Corrections Crew to reduce populations.	Common teasel
Army Corps of Engineers:Rangers	Common Tansy	Bonneville Lock and Dam	Ongoing	300	Continue to incorporate ranger staff, project staff and Skamania County Corrections Crew to reduce populations.	Common tansy
Army Corps of Engineers:Rangers	Knapweed	Bonneville Lock and Dam	Ongoing	201	Continue to incorporate ranger staff, Skamania County Noxious Weed Board personnel, WSU Extension office (Bio Control) and the Skamania County Corrections Crew to reduce populations.	Knapweed spp.
Army Corps of Engineers:Rangers	Poison Hemlock	Bonneville Lock and Dam	Ongoing	5	Continue to incorporate ranger staff and Skamania County Corrections Crew to reduce populations.	Poison hemlock

Army Corps of Engineers:Rangers	Knotweed	Bonneville Lock and Dam	Summer 2016	0.5	Covered know population of knotweed for 6 years to attempt to chock it out. Minimal sucess was obtained as the knotweed poked through the barrier in 4 years. Tentative plan to use chemical treatment in 2015 with a followup chemical treatment in 2016.	Knotweed
Clackamas WeedWise Program, Specific Landowner	Clackamas County Priority Weed Control	All of Clackamas County within the CWMA boundaries, OR	Ongoing	N/A	The WeedWise program works to control all designated priority weeds within the Clackamas portion of the CWMA. We offer free weed control to interested landowners in the Clackamas portion of Sandy River Basin.	Japanese knotweed, orange hawkweed, spurge laurel, policeman's helmet, garlic mustard, giant hogweed, false brome
Columbia Land Trust	The Dalles Uplands Weed Control	Two sites on the outskirts of The Dalles, OR	15-Aug	~500	Chemical control of rush skeletonweed, diffuse knapweed, and medusahead rye on properties conserved for native flora.	Rush skeletonweed, diffuse knapweed, medusahead rye
Columbia Land Trust, Hood River County	Powerdale Weed Control	Lower Hood River up to river mile 4, OR	Ongoing	~400	Annual control of noxious weeds on the former PacifiCorp Powerdale lands. Level of effort and acres treated will vary annually depending on available time and money.	Knapweed spp., thistle spp., Scotch broom, Himalayan blackberry, reed canary grass, yellow flag iris

East Multnomah SWCD	Garlic Mustard Containment Project	Unincorporated lands of the East Multnomah Soil and Water Conservation District	Ongoing	233 gross	Containment project to maintain or decrease garlic mustard distribution in the Gorge and Sandy River Basin until an effective bio-control agent becomes available. The strategy is to eradicate all satellite populations outside of the containment zone and treat patches within the zone where they intersect with vectors such as roadside right of ways and trailheads.	Garlic mustard
East Multnomah SWCD	False Brome Control in the Columbia River Gorge	Western Columbia River Gorge, Multnomah County	Ongoing	91 gross	Our goal is to eradicate this species from all sites east of the Sandy River with the exception of Tanner Creek where we are working on containment.	False brome
East Multnomah SWCD	Rural Lands Knotweed Control	Unincorporated lands of the East Multnomah Soil and Water Conservation District	Ongoing	0.75 net	Control of knotweed locations within the Sandy River Basin and all areas east within the East Multnomah Soil and Water Conservation District	Knotweed spp.
East Multnomah SWCD	Sandy Exotic Vine Eradication and Restoration	East of the Sandy River within Multnomah County	Ongoing	1660 gross	Reduce the area infested with English ivy and old man's beard in the East Multnomah Soil and Water Conservation District east of the Sandy River	Clematis vitalba, English ivy

East Multnomah SWCD	Spurge Laurel Control in Eastern Multnomah County	East of the Sandy River within Multnomah County	Ongoing	78 gross	Control known spurge laurel locations east of the Sandy River within Multnomah County	Spurge laurel
Hood River SWCD	Noxious Weed Outreach	Hood River County, OR	Ongoing	N/A	Distribute information on weed management, prevention and eradication via the District's website, eNewsletter, Annual Report, publications, workshops, and landowner technical assistance.	EDRR
Hood River SWCD	Noxious Weed Technical Assistance and Leadership	Hood River County, OR	Ongoing	N/A	The Hood River SWCD has dedicated staff time to providing technical assistance and leadership in the community to further large scale directives and action to abate noxious weeds in Hood River County. This includes participating in the Columbia Gorge CWMA, acting as the point of response for OR Invasives Hotline reports and serving on the Hood River County Weed Board.	EDRR
Hood River SWCD, Hood River County Weed and Pest, NRCS, recreational groups, landowners	Puncturevine Abatement Effort	Hood River County, OR	Ongoing	unknown	An effort began in 2013 to abate a growing infestation of puncturevine in Hood River County. Hood River SWCD has played an active role in this effort.	Puncturevine

Hood River SWCD, USFS, Hood River County Weed and Pest, Western Invasives Network, ODA and landowners	Hood River Garlic Mustard Abatement Project	Parkdale, OR	Ongoing	32.7 acres	2015 will mark the fifth year of an effort to control the only two known sites of garlic mustard in Hood River County.	Garlic mustard
Hood River Watershed Group, Indian Creek Stewards, Hood River Valley Parks and Rec. District	Indian Creek Stewards Riparian Restoration Maintenance	Indian Creek corridor, Hood River, OR	Ongoing	unknown	Mulch, mow, weed, and otherwise maintain Union St., CGCC, and other Indian Creek Trail riparian restoration sites to prevent reinfestation by noxious weeds.	Knapweed spp., Himalayan blackberry, poison hemlock, reed canary grass, English ivy
Klickitat Co NWCB and Sk Co NWCB with funding from Pacificorp	Weed Control	White Salmon River (Condit Dam removal site), WA	Ongoing	N/A	Weed control.	Yellow flag iris, Scotch broom, thistle spp.
Lynn Gibbons	Menucha	Corbett, OR	Ongoing, 15th year	100	Prevent garlic mustard from expanding into addition natural areas. Eradicate English ivy from all areas.	Garlic mustard, English ivy, English holly, Norway maple.
Lynn Gibbons	Franciscan Villa	Bridal Veil, OR	Ongoing	5	Eradicate non-natives from woodland areas of estate and ivy from entire estate.	English ivy, vinca spp., English holly, garlic mustard
ODFW, NRCS, Sherman Weed Dept, BLM, Wasco/Sherman SWCD	Lower Deschutes Weed Corridor Project	Lower Deschutes River (Wasco/Sherman Co.), OR	Ongoing	N/A	Controlling weeds on private & federal property.	Knapweed spp., thistle spp., rush skeletonweed, whitetop
Skamania County NWC with funding from US Army Corps of Engineers	Noxious Weed Survey and Control	Bonneville Project, WA	2019	192	Noxious weed survey and control.	Scotch broom, diffuse knapweed, tansy ragwort, spurge laurel

Skamania County NWCB with funding from Cowlitz PUD	Noxious Weed and Vegetation Control	Swift Canal, WA	Ongoing	121	Noxious weed and vegetation control.	Scotch broom, tansy ragwort, thistle spp.
Skamania County NWCB with funding from DNR, NSA, Beacon Rock; in conjunction with USFWS, USACE, Columbia Land Trust, Wa State Parks, NSA	Cooperative Indigobush Control Project	Beacon Rock SP, Ives Island, Pierce Wildlife Refuge, WA	15-Jun	100	Cooperative false indigo control project.	False indigo
Skamania County NWCB with funding from USFS/NSA	Noxious Weed Control	Gifford Pinchot NF, Mt. St. Helens NM, National Scenic Area, WA	Ongoing	3732	Noxious weed control.	Various
Skamania County NWCB with funding from WSDA	Class A Control/Eradication	Skamania County, WA	Ongoing	47	Class A weed control and eradication.	Garlic mustard, shiny geranium, false brome, oblong spurge
Skamania County NWCB with funding from WSDA	Knotweed Control	Skamania and Klickitat Counties, WA	30-Jun-15	183	Knotweed control.	Knotweed spp.
Skamania County NWCB with funding from Department of Ecology; in conjunction with USFS/Monument	Coldwater Lake Aquatic Invasive Species Survey and Management Plan	Coldwater Lake, MSHNM, WA	2016	N/A	Survey Coldwater Lake for aquatic invasive species and use survey data to construct an integrated aquatic vegetation management plan.	Aquatic invasives
Wasco SWCD, NRCS & landowner/operator	Conservation Reserve Program (CRP)	Wasco County, OR	Ongoing	N/A	Cropland planted to perennial grasses and forbs.	Knapweed spp., thistle spp., puncturevine, mullein

Wasco SWCD, NRCS & landowner/operator	Conservation Reserve Enhancement Program (CREP)	Wasco County, OR	Ongoing	N/A	Stream and riparian enhancement.	Knapweed spp., thistle spp., juniper, yellow flag iris, Himalayan blackberry
Wasco SWCD, Wasco Co. Parks & Rec.	River Front Project	River Front Park - The Dalles, OR	Ongoing	40	Weed control.	False indigo, Russian olive, Himalayan blackberry, tree of heaven
