Cascade Pacific RC&D is a 501(c)(3) non-profit organization established in 1989 as part of a national network of RC&D Councils to support local communities.

For over 25 years we have been supporting community-driven, collaborative projects in the Willamette Valley and across the state.

We help facilitate collaborative partnerships to organizations and groups to achieve synergistic outcomes that mutually satisfy our respective missions.

We fill a valuable fiscal role that allows these groups to expand their capacity, attract funding and accomplish their work on the ground.

**OUR MISSION**

*To work with citizens to enhance their communities through social, economic, educational and environmental improvements.*

**STAFF**

Kirk Shimeall, *Executive Director*

kirk@cascadepacific.org

Molly Davis, *Fiscal Manager*

molly@cascadepacific.org

Linda Modrell, Member at Large

*Local Citizen, Retired Benton County Commissioner*

Jackie Mikalonis, Member at Large

*Regional Coordinator, Office of the Governor*

David Richey, Member at Large

*Senior GIS Analyst, Lane Council of Governments*
Fiscal Sponsorship and Fiscal Administration

Cascade Pacific provides fiscal sponsorship and fiscal administration services, including financial and human resource management for groups, organizations and coalitions engaged in social, economic, educational and environmental activities that align with our mission. Fiscal Sponsorship is a fee-based arrangement that enables the sponsored organization to focus on their work "on the ground". A few of our current clients and projects are listed below.

Forest Stewardship

In partnership with the Siuslaw National Forest (SNF) and others, Cascade Pacific facilitates forest stewardship through the Siuslaw Collaborative Watershed Restoration Program. CPRCD manages a Stewardship Fund created from the retained timber receipts generated through the implementation of stewardship timber sale contracts on the SNF. The fund offers landowners and managers within the Alsea, Hebo, Marys Peak, and Siuslaw Stewardship group areas, a funding source to improve and restore fish and wildlife habitat on private and other non-federal lands where there is demonstrated benefit to national forest lands. Each Stewardship group includes individuals, organizations and other stakeholders who meet monthly to guide the utilization of the fund, and prioritize and approve projects that promote forest restoration and support local communities. To date over $2.8 million has been awarded for non-federal watershed restoration projects within the four stewardship group areas.

Western Invasive Network (WIN)

WIN is an informal network of individuals, organizations, and agencies whose mission is to prevent and control the introduction and spread of harmful invasive plant species in northwest Oregon and southwest Washington by coordinating information and the activities of Cooperative Weed Management Areas (CWMAs) and willing land managers.

The WIN program fosters local decision making and on-the-ground partnerships including those listed below.

- Cooperative Weed Management Areas (CWMA)
- Oregon Invasives Hotline
- iMap Invasives Data Base
- Invasive Species Workshops
- Western Aquatic Invasives Network (WAIN)
